

MOHAMMAD MAHADHI BEEN ERSHAD

A BIT ABOUT ME

I am a motivated student applying for an internship opportunity. I have completed 11 academic subjects and have a strong interest in creativity, emerging technologies, and AI-based solutions. I am eager to gain hands-on industry experience and develop my skills in a professional environment.

ACADEMIC PROJECT

Participated in group-based academic projects involving analysis, research, and presentation. For instance, organised a Database Workshop
Applied creative thinking to assignments and problem-solving tasks

PERSONAL STRENGTHS

Highly motivated and disciplined
Creative mindset with analytical approach
Adaptable to new environments
Strong sense of responsibility and professionalism

SKILLS

Proficient in Microsoft Word, Microsoft Access, and Microsoft Office tools
Database fundamentals and hands-on practice with SQL databases
Understanding of database concepts (tables, relationships, queries)
UI/UX design fundamentals using Figma
Creative problem-solving and analytical thinking
Team collaboration, communication, and documentation skills

EDUCATION

GCSEs (Completed)
Djanogly City Academy, United Kingdom

Diploma in Information Technology (Ongoing)
Currently in 5th Semester
Current CGPA-2.52

WORK EXPERIENCE

Team Member – B&M Retail, United Kingdom
Worked for 2 months as part of a retail team

- Supported daily store operations and assisted customers
- Worked collaboratively as a team member in a fast-paced environment
- Demonstrated reliability, time management, and professional conduct

CAREER OBJECTIVE

To get a job position where I can apply my academic knowledge, creativity, and interest in AI-driven solutions while gaining practical experience in a professional environment.
